

# UNICO 4060/9

- Baking chamber with convection heating, equipped with an electrically heated deck of embossed metal sheet with independent temperature control (european patent) capable of rapidly reaching 350 °c for excellent cooking of products such as pizza and focaccia.
- Total electric power in line with standard ventilated ovens on the market
- Computer 100 programs
- Electrical switchboard located above baking chamber to reduce oven width
- Floor water drain
- Steam generator with water nebulization.
- Chamber provided with 4 halogen lamps for complete visibility of the product
- Steam automatic exhaust valve
- Possibility of symmetric opening door (handle left side)
